DETAILED ACTION

Election/Restriction

Applicant's election, without traverse, of Group I and the species of Example 1, as the Group and species elected to begin prosecution, is acknowledged. The election is hereby made FINAL.

Allowable Subject Matter

The elected species has been searched and is deemed free of the prior art. The search was therefore expanded as called for under current Office Markush practice, a compound-by-compound search, to include a single additional species. That species is defined when: R^1 =nitro; $R^2=R^3$ =H; A=phenyl, $R^{15}=R^4$ =halo. A rejection follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18, in so far as they read on the species defined above, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by *Journal of the American Chemical Society* (1946), 68, p. 1039-1049 (CAPLUS abstract). The reference teaches applicant's compound, for instance: RN=860522-91-4.
